

Publications

John Hamer

February 3, 2011

Refereed publications

- [1] John Hamer and Michael de Raadt, editors. *Proceedings of the Thirteenth Australasian Computing Education Conference*, Perth, Australia, January 2011. CRPIT.
- [2] Helen Purchase, John Hamer, Aran Jamieson, and Oran Ryan. Investigating objective measures of web page aesthetics and usability. In *Australasian User Interface Conference (AUIC)*, page to appear, Perth, Australia, January 2011.
- [3] John Hamer, Helen Purchase, Andrew Luxton-Reilly, and Judithe Sheard. Tools for “Contributing Student Learning”. *ACM Inroads*, page to appear, March 2011.
- [4] Paul Denny, Andrew Luxton-Reilly, John Hamer, Dana Dahlstrom, and Helen Purchase. Self-predicted and actual performance in an introductory programming course. In *ITiCSE 2010*, pages 118–122, Ankara, Turkey, June 2010.
- [5] Helen Purchase, John Hamer, Paul Denny, and Andrew Luxton-Reilly. The quality of a PeerWise MCQ repository. In *Twelfth Australasian Computing Education Conference (ACE'10)*, pages 137–146, Brisbane, Australia, January 2010.
- [6] John Hamer, Helen Purchase, Paul Denny, and Andrew Luxton-Reilly. Quality of peer assessment in CS1. In *Fifth International Computing Education Research Workshop (ICER'09)*, pages 27–35, Berkeley, CA, August 2009.
- [7] Alison Mitchell, Helen Purchase, and John Hamer. Computing science: What do pupils think? In *14th Annual ACM SIGCSE Conference on Innovation and Technology in Computer Science Education*, page 353, Paris, France, July 2009. ACM, New York, NY.

- [8] Paul Denny, Andrew Luxton-Reilly, John Hamer, and Helen Purchase. Coverage of course topics in a student generated MCQ repository. In *14th Annual ACM SIGCSE Conference on Innovation and Technology in Computer Science Education*, pages 11–15, Paris, France, July 2009. ACM, New York, NY. <http://doi.acm.org/10.1145/1562877.1562888>.
- [9] John Hamer, Paul Denny, Andrew Luxton-Reilly, Beryl Plimmer, and John Hosking. Aropã and PeerWise: Supporting student contributed pedagogy in large classes. In *EDUCAUSE Australasia*, Perth, Australia, May 2009.
- [10] Paul Denny, Andrew Luxton-Reilly, and John Hamer. Tools that support contribution-based pedagogies. In *Proceedings of the ACM-IFIP IEEIII 2008 Informatics Education Europe III Conference*, Venice, Italy, December 2008.
- [11] Paul Denny, John Hamer, Andrew Luxton-Reilly, and Helen Purchase. PeerWise: Students sharing their multiple choice questions. In *Fourth International Computing Education Research Workshop (ICER 2008)*, pages 51–58, Sydney, Australia, September 2008.
- [12] Paul Denny, John Hamer, Andrew Luxton-Reilly, and Helen Purchase. PeerWise. In Arnold Pears and Lauri Malmi, editors, *Koli Calling 2008: 8th International Conference on Computing Education Research*, pages 109–112. Department of Information Technology, Uppsala University, November 2008.
- [13] John Hamer, Quintin Cutts, Jana Jackova, Andrew Luxton-Reilly, Robert McCartney, Helen Purchase, Charles Riedesel, Mara Saela, Kate Sanders, and Judithe Sheard. Contributing student pedagogy. *SIGCSE Bulletin*, 40(4):196–214, December 2008.
- [14] John Hamer. Engagement through contribution. In Norman Creaney and Thérèse Charles, editors, *Novel Approaches to Promoting Student Engagement*, pages 19–23, Coleraine, Ireland, October 2008. HEA-ICS.
- [15] Paul Denny, Andrew Luxton-Reilly, and John Hamer. The PeerWise system of student contributed assessment questions. In Simon and M. Hamilton, editors, *Tenth Australasian Computing Education Conference (ACE 2008)*, volume 78 of *CRPIT*, pages 69–74, Wollongong, NSW, Australia, 2008. ACS.
- [16] Paul Denny, Andrew Luxton-Reilly, and John Hamer. Student use of the PeerWise system. In *ITICSE'08: Proceedings of the 13th Annual SIGCSE Conference on Innovation and Technology in Computer Science*, pages 73–77, New York, NY, USA, 2008. ACM.

- [17] John Hamer. Laboratory reports, reflective essays, and the contributing student approach. In *REAP International Online Conference on Assessment Design for Learner Responsibility*, Available at <http://ewds.strath.ac.uk/REAP07>, May 2007.
- [18] John Hamer, Catherine Kell, and Fiona Spence. Peer assessment using Aropä. In Samuel Mann and Simon, editors, *ACE'07: Ninth Australasian Computing Education Conference*, volume 66, pages 43–54, Ballarat, Victoria, February 2007. Australian Computer Society.
- [19] Jerry Mead, Simon Gray, John Hamer, Richard James, Juha Sorva, Caroline St. Clair, and Lynda Thomas. A cognitive approach to identifying measurable milestones for programming skill acquisition. In *ITiCSE-WGR'06: Working Group Reports on ITiCSE on Innovation and Technology in Computer Science Education*, pages 182–194, New York, NY, USA, 2006. ACM Press.
- [20] John Hamer. Contribution-based pedagogies in engineering education. In *AAEE'06 17th Annual Conference of the Australasian Association for Engineering Education*, page #40, Auckland, New Zealand, December 2006.
- [21] John Hamer. Contributing student pedagogy: What, why and how. In *TERNZ Conference*, Christchurch, New Zealand, November 2006. HERDSA.
- [22] John Hamer. Some experiences with the “contributing student approach”. In *ITiCSE'06 Eleventh Conference on Innovation and Technology in Computer Science Education*, pages 68–72, Bologna, Italy, June 2006. ACM Press.
- [23] Edward F. Gehringer, Katherine Deibel, John Hamer, and Keith J. Whittington. Cooperative learning: beyond pair programming and team projects. In *SIGCSE'06: Proceedings of the 37th SIGCSE Technical Symposium on Computer Science Education*, pages 458–459, New York, NY, USA, 2006. ACM Press.
- [24] D. Tolhurst, B. Baker, J. Hamer, I. Box, R. Lister, Q. Cutts, M. Petre, M. de Raadt, A. Robbins, S. Fincher, Simon, P. Haden, K. Sutton, M. Hamilton, and J. Tutty. Do map drawing styles of novice programmers predict success in programming? a multi-national, multi-institutional study. In D. Tolhurst and S. Mann, editors, *ACE'06 Australasian Computer Society Education Conference*, volume 52 of *Conferences in Research and Practice in Information Technology*, pages 213–222. Australian Computer Society, February 2006.

- [25] Simon, Sally Fincher, Anthony Robins, Bob Baker, Quintin Cutts, Patricia Haden, Margaret Hamilton, Marian Petre, Denise Tolhurst, Ilona Box, Michael de Raadt, John Hamer, Raymond Lister, Ken Sutton, and Jody Tutty. Predictors of success in a first programming course. In D. Tolhurst and S. Mann, editors, *ACE'06 Australasian Computer Society Education Conference*, volume 52 of *Conferences in Research and Practice in Information Technology*, pages 189–196. Australian Computer Society, February 2006.
- [26] Simon, Quintin Cutts, Sally Fincher, Patricia Haden, Anthony Robins, Ken Sutton, Bob Baker, Ilona Box, Michael de Raadt, John Hamer, Margaret Hamilton, Raymond Lister, Marian Petre, Denise Tolhurst, and Jody Tutty. The ability to articulate strategy as a predictor of programming skill. In D. Tolhurst and S. Mann, editors, *ACE'06 Australasian Computer Society Education Conference*, volume 52 of *Conferences in Research and Practice in Information Technology*, pages 181–188. Australian Computer Society, February 2006.
- [27] John Hamer and Helen Sword. The Aropä project: A study of peer assessment and student learning. In *TERNZ Conference*. HERDSA, November 2005.
- [28] Michael de Raadt, Margaret Hamilton, Raymond Lister, Jodi Tutty, Bob Baker, Ilona Box, Quintin Cutts, Sally Fincher, Patricia Haden, John Hamer, Marian Petre, Anthony Robins, Simon, Ken Sutton, and Denise Tolhurst. Approaches to learning in computer programming students and their effect on success. In *Annual International Conference of the Higher Education Research and Development Society of Australasia (HERDSA)*, pages 407–414, Sydney, Australia, July 2005.
- [29] Sally Fincher, Bob Baker, Ilona Box, Quintin Cutts, Michael de Raadt, Patricia Haden, John Hamer, Margaret Hamilton, Raymond Lister, Marian Petre, Anthony Robins Simon, Ken Sutton, Denise Tolhurst, and Jodi Tutty. Programmed to succeed?: A multi-national, multi-institutional study of introductory programming courses. Technical Report 1-05, University of Kent, Computing Laboratory, University of Kent, Canterbury, Kent, UK, April 2005.
- [30] John Hamer, Kenneth T.K. Ma, and Hugh H.F. Kwong. A method of automatic grade calibration in peer assessment. In Alison Young and Denise Tolhurst, editors, *ACE'05 Australasian Computer Society Education Conference*, volume 42 of *Conferences in Research and Practice in Information Technology*, pages 67–72. Australian Computer Society, January 2005.

- [31] Raymond Lister, Elizabeth S. Adams, Sue Fitzgerald, William Fone, John Hamer, Morten Lindholm, Robert McCartney, Jan Erik Moström, Kate Sanders, Otto Seppälä, Beth Simon, and Lynda Thomas. A multi-national study of reading and tracing skills in novice programmers. *ACM SIGCSE Bulletin*, 36(4):119–150, December 2004.
- [32] John Hamer. Peer assessment made easy. University of Auckland Teaching and Learning Conference, November 2004.
- [33] John Hamer. A lightweight visualizer for Java. In Ari Korhonen, editor, *Third Program Visualization Workshop*, pages 54–61, Warwick, England, 2004.
