# Detailed Components of the Project

The second 30% component of the course is the project, and it is done as a group, but several components are marked individually. Individual components require individual submissions, group components should be submitted by the group member with the alphabetically first UPI in the group. The interim deliverables (adding up to 5 percent) that you have already submitted are also listed for completeness.

Presentation:
- presentation performance itself: 2% towards the final grade (Individual work)
- presentation slides: 3% towards the final grade. (Groupwork)

Project deliverables: Software implementation projects
- Intermediate planning document: 2.5% towards the final grade. (Groupwork, already done)
- Architectural spike: 2.5% towards the final grade. (Groupwork, already done)
- Plan and journal of work done, reflection: 2% towards the final grade. (Individual work)
- The software: 8.5% towards the final grade. (Groupwork)
- Documentation: 6.5% towards the final grade. (Individual work)
- Morae video of the usage of the tool: 3% towards the final grade. (Groupwork)

Project deliverables: Evaluation projects
- Intermediate planning document: 2.5% towards the final grade. (Groupwork, already done)
- Evaluation task script and pilot: 2.5% towards the final grade. (Groupwork, already done)
- Plan and journal of work done, reflection: 2% towards the final grade. (Individual work)
- Detailed Report: 8.5% towards the final grade. (Groupwork)
- Summary of methods and results: 6.5% towards the final grade. (Individual work)
- Morae video of evaluation examples: 3% towards the final grade. (Groupwork)

The documentation component is project dependent and will be a zip of a website including download. It has to state:
- project objectives or purpose of the software,
- implementation design,
- user manual, installation guide
- status/completeness of the implementation.

The documentation can and should contain the information of the presentation slides, and the slideshow for download. The technical documentation of the code itself is part of the implementation component.

For groupwork, all members of the group will get the same mark, unless members of the group explicitly appeal to the lecturers.
